

FX-30 moisture meter for Hay – Hops – Hemp – Tobacco - Brazil nuts - Dates

The FX-30 multi-purpose meter features the Delmhorst **EDGE®** app with customizable settings and user-selectable calibrations for Hay, Hops, Hemp, Brazil Nuts, Tobacco, and Dates. Having a reliable, accurate tool to monitor moisture through each phase of the process enhances quality control and increases profits.

FX-30 PRODUCT FEATURES

- Large, custom display with auto backlight – easy to read under all conditions
- Modern case design with large, tactile buttons and E-Z grip handle
- Moisture Range:
 - Hay - 6%-40%
 - Hops - 8%-23%
 - Hemp – 7%-34%
 - Tobacco – 8%-37%
 - Brazil Nuts – 6%-25%
 - Dates – 6%-25%
- Bluetooth® connectivity to **EDGE®** app
- Color-coded LED's – adjustable through **EDGE®** app
- Alarm set point - alerts to user-selected MC level
- Internal calibration check
- "Low Batt" warning with audio
- Auto off timer. Set to 1m, 4m or 10m
- Compatible with existing Delmhorst prods and electrodes

METER SPECIFICATIONS

- Power: 2x AA Alkaline batteries
- Temperature Correction Range: -18°->124°C
- QR code on meter for easy access to support materials and meter registration
- Size: meter only – 204 mm x 72,4 mm x 41 mm
- Weight: meter only – 218 g
- Optional hard plastic carrying case
- 2-year limited warranty on manufacture's defects. Bonus 3 months extended warranty with on-line registration

Delmhorst **EDGE®** app

- Timestamp and geotag
- Data export to .csv format
- Save unlimited readings
- Customized LED ranges
- Multi-language

FX-30 Package Variations for Hay, Hemp and Hops:

The FX-30, purchased individually, includes the FX-30 meter only. **Order as FX-30**

The Value Package includes the FX-30 meter and 1235/25 cm prod. **Order as FX-30/1235**

The Value 18" Package includes the FX-30 meter, and 1235/45 cm prod. **Order as FX-30/1235/18**

The Deluxe Package includes the FX-30 meter, 324CAS-0112 carrying case, H-4 handle, 830-2/25 cm prod, and 831 windrow probe. **Order as FX-30/P01**

The Deluxe 18" Package includes the FX-30 meter, 324CAS-0112 carrying case, H-4 handle, 830-3/45

cm prod, and 831 windrow probe. **Order as FX-30/P02**

The Hops Package includes the FX-30 meter, 324CAS-0112, H-4 handle, and 830-5/30 cm prod.

Order as FX-30/P04

FX-30 moisture meter for Hay – Hops – Hemp – Tobacco - Brazil nuts - Dates

Recommended electrodes:

1235

Pen electrode available in 2 lengths:

1235 – 25cm (10")

1235/18 – 45cm (18")

(Attaches directly to the connector on top of the meter)

For moisture measuring in standard bales

830-X

Pen electrode available in different lengths:

830-2 – 25cm (10")

830-3 – 45cm (18")

830-4 – 90cm (36")

830-5 – 30cm (12")

(Requires H-4 Handle)

For moisture measuring in standard and high density bales

831

Short needle electrode (requires H-4 Handle)
For testing MC of hay in the windrow

H-4

Handle for electrodes 830-x and 831. Two handed operation is recommended over using an electrode that connects directly to the top of the meter (like our 1235 series) to minimize stress placed on the meter casing.

2-E

2-pins electrode
For testing Brazil Nuts or Dates

37-EC

Tobacco leaves multipin electrode, length 38mm (1½") with 2,5cm (1") penetration.

30-EC

Tobacco bales electrode with 2 long insulated pins of 24cm (9½")
The insulated pins are ideal for measuring the moisture content in bales. With the insulated pins, you measure inside the bale instead of measuring the surface moisture.

MCS-5

This moisture content standard is great for verifying that your F-series moisture meter is in calibration. With two electrical resistance values (16% and 22%) to test your meter against, you can be sure that your readings will stand up to the strictest standards of accuracy.

FX-30 for Tobacco, Brazil nuts and Dates (dry fruits)

TOBACCO – Order the **FX-30/P01** and/or optional the **30-EC bale** and **37-EC multipin electrode**

BRAZIL NUTS – Order the **FX-30 plus electrode 2-E**

DATES – Order the **FX-30 plus electrode 2-E**
